

Collective

Four fundamental stones in contemporary cuts, with monolithic and combined mosaics, present an elegant contemporary design-way for upscale hospitality and luxury residential projects. The clean white of the Alabastrine; the masculine Sepia Brown; the enveloping Fog and the natural flow of our newest veined marble, River, provide designers with a rich palette of stone for their luxe project.

In addition to our stocked formats, our Collective series can be cut-to-size for projects utilizing slabs, tile, mosaics and waterjets.
