ROUGE

Our standard inventory offering is in a blend of rouge, brique and ochre with an antiqued, old world finish. A smoother texture is available by reversing the tile and putting the antiqued side downward. In addition to ordering individual colors on a project basis, we also offer what is described as a black and a white. This product can be glazed and refired.

In addition to our standard sizes, we make many shapes and patterns custom for projects. Stair treads available.
