

Laboratoire[®]

Laboratoire is our bespoke program for both artistic and field glass. Whether you want to design your own artistic piece – from a photo, a cartoon or a drawing – or you want to use one of our existing pieces, each piece is produced to your specification and scale.

An ideal specification for hospitality, luxury residential or corporate brand identification, Laboratoire is an affordable, yet signature opportunity to define space in a textural context. Hospitality lobbies, elevator vestibules and guest room art are affordable and dramatic aesthetics that can provide functional information to clientele. An alternative to wallpaper in any commercial environment, these pieces can become iconic in the hands of a skilled designer.
