

Laboratoire®

Welcome to our Laboratoire, where your vision meets our craftsmanship. We create bespoke, high quality glass art that enhances brands, artists, institutions, and luxury residences. Our work seamlessly integrates into your space, beyond mere decoration. Let this be an invitation to imagine new possibilities.

ORGANIC

For millennia, nature has inspired art. Our artisans craft bespoke designs from natural materials ranging from subtle fronds to vibrant florals. Scalable for any space, each piece blends elegance and luxury.

Inspired by Moderne's iconic curves, this timeless design is available in over 200 colors. Choose from our collection or customize it to suit your vision for a perfect blend of luxury and artistry.

MODERNE

ARTISTIC

Our most sought-after program partners with artists to bring their vision to life—whether original works, reimagining's, or inspired by antiquity. From public murals to private collections, this program helps artists showcase their work in luxury hotels, restaurants, and more.

BRANDING

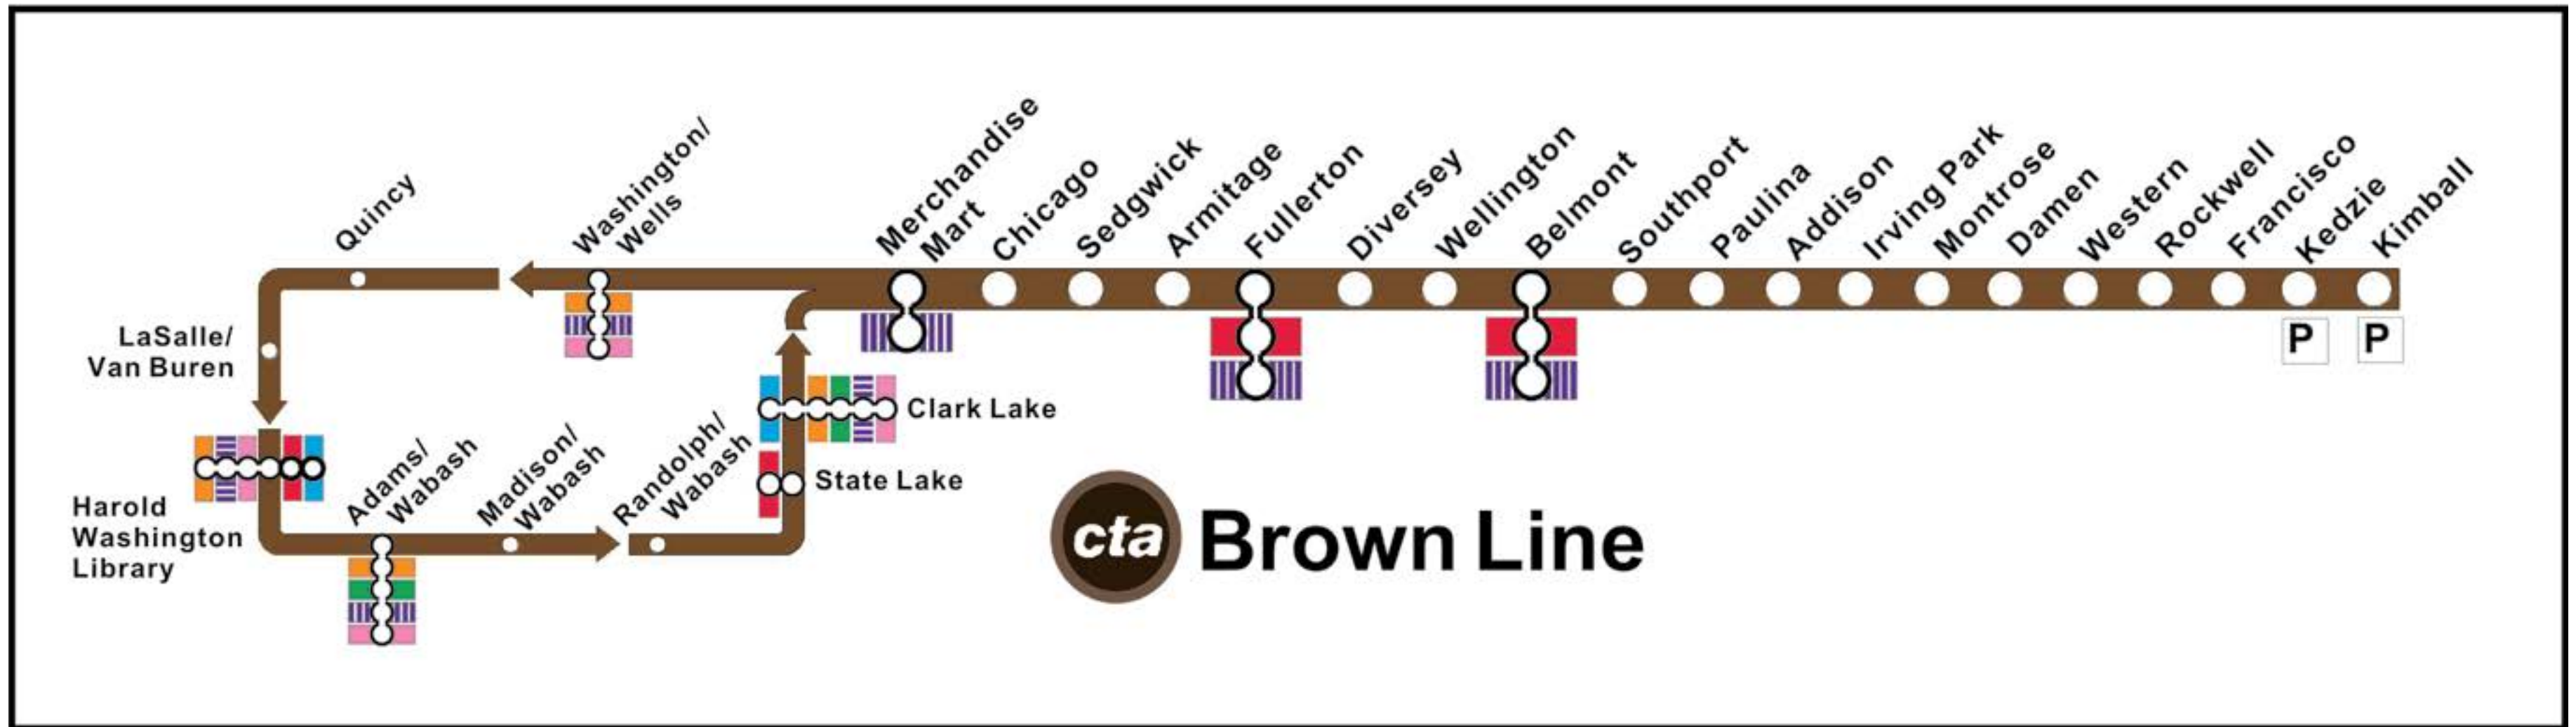

Our newest offering for hospitality lets you showcase your logo in unique ways—on floors, walls, or even submerged. Mosaics provide a timeless, authentic touch, elevating your brand beyond traditional mediums and resonating with your clients.

COMMERCIAL

Sometimes wallpaper or tile isn't enough, you want something bold and captivating. Elevate your space with a custom mural that commands lasting impression, making it a destination admired in person and on social media.

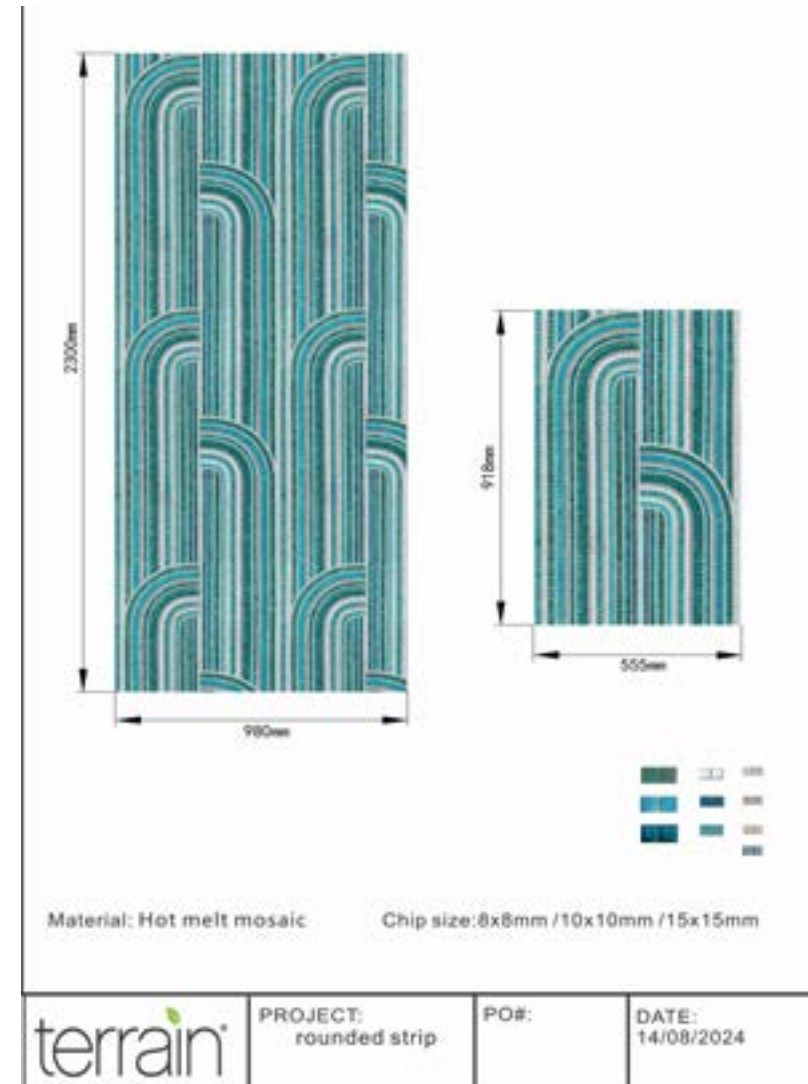

SIGNAGE

Signage can be functional or artistic. Our mosaics blend both, seamlessly integrating information with design for a memorable, visually stunning experience—perfect for enhancing your space and creating Instagram-worthy moments.

OUR PROCESS

To begin, simply provide an artistic representation of your vision and the required dimensions—whether a sketch, photo, or even a cartoon.

Upon receiving your inspiration, our artisans will prepare a refined digital rendering. The drawing can then be reviewed and modified including additions and subtractions, color amendments and glass choice.

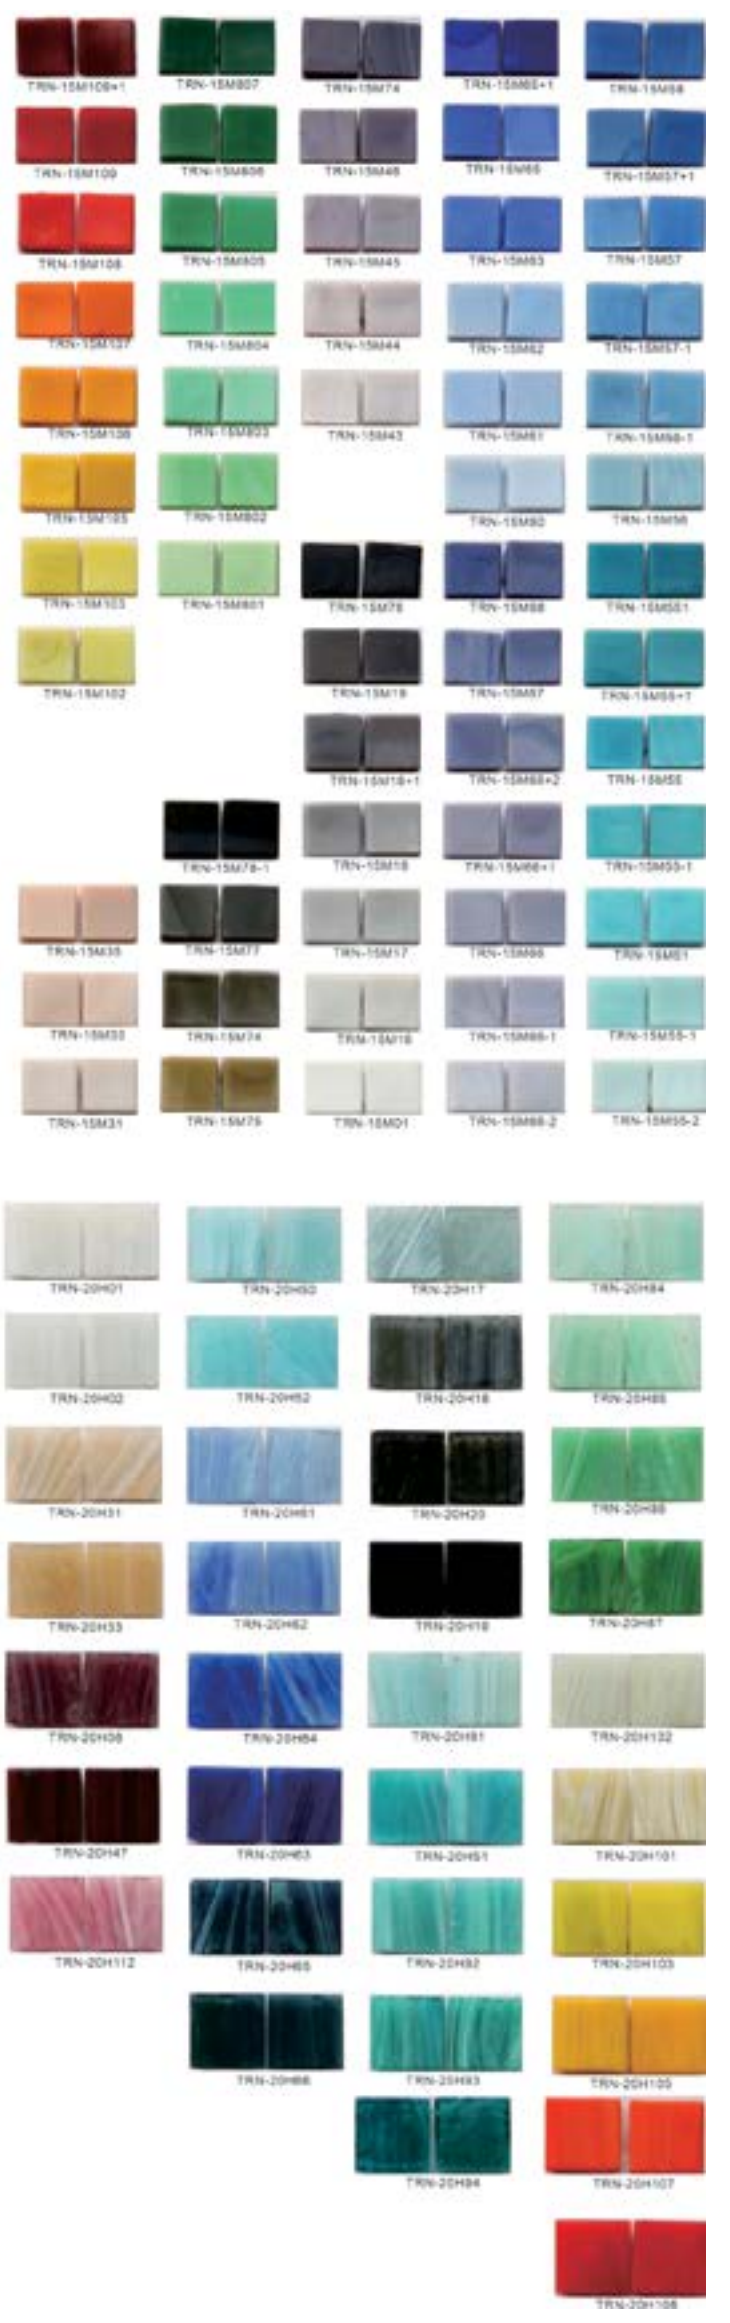

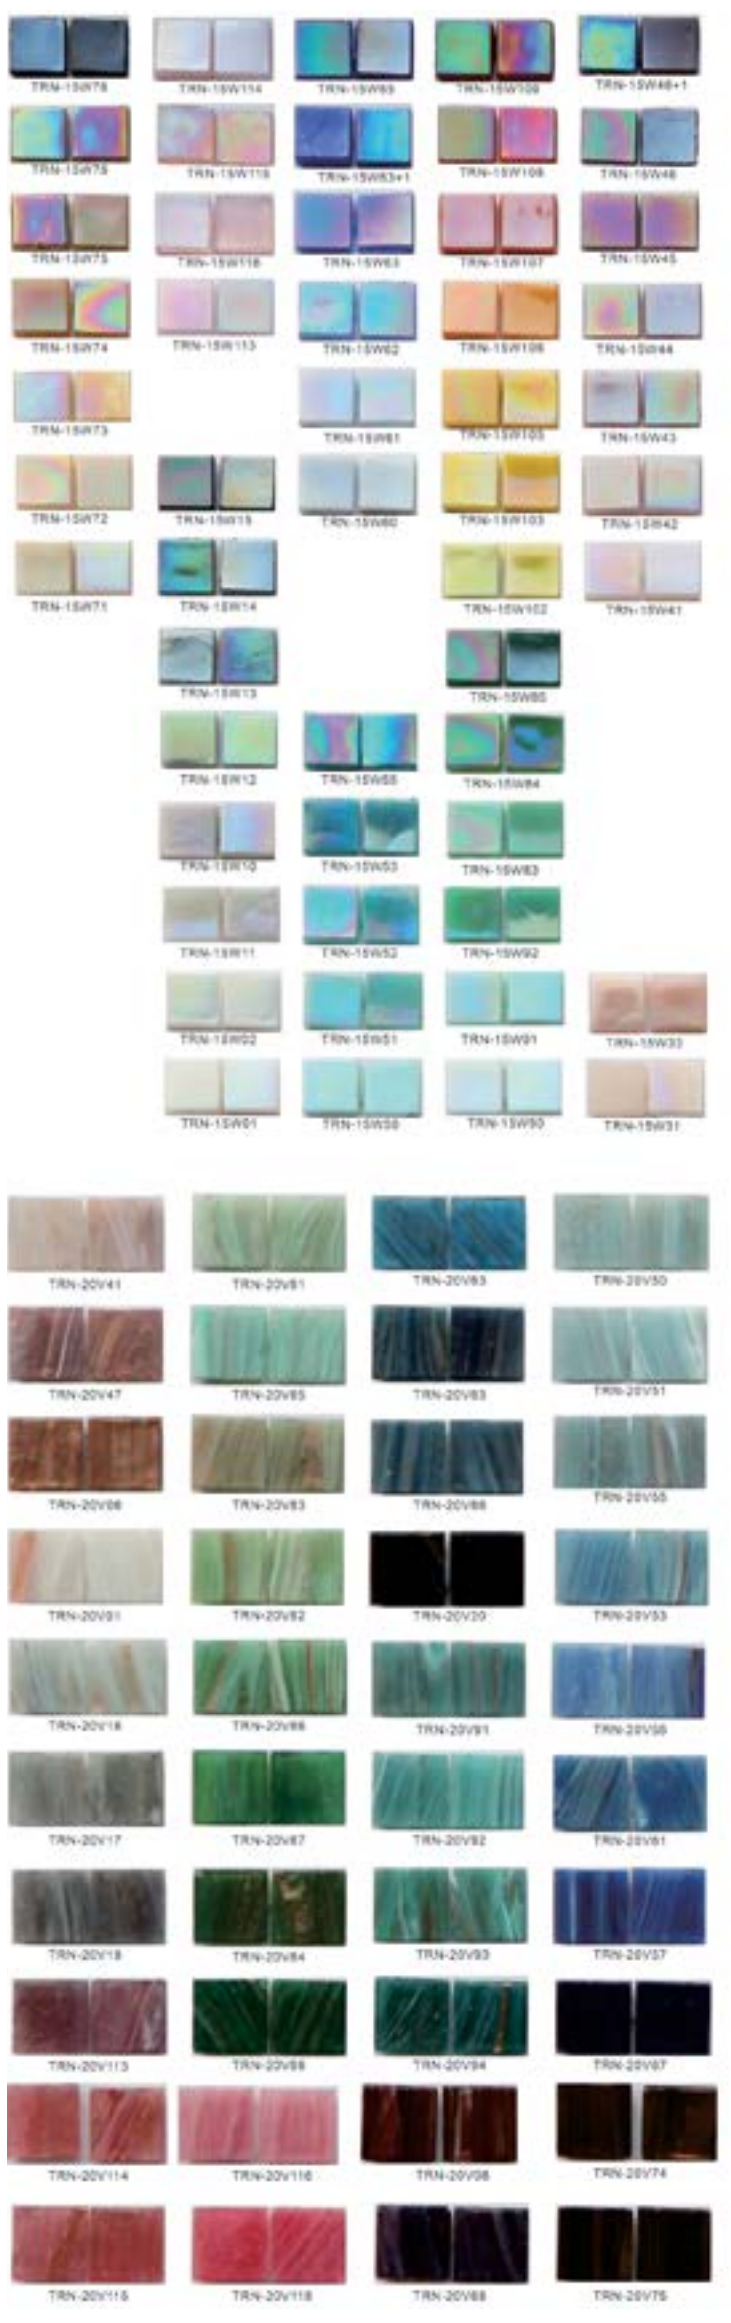

Once the rendering has been approved, we begin production. As production becomes a mosaic, you will receive images of the piece prior to mounting.

The final stage is installation, where your vision takes form, transforming the space with exquisite texture and unparalleled artistry. This is the moment where your distinct design defines its environment.

Our murals are customizable for a variety of applications, including indoor or outdoor use, on floors or walls, in pools, showers, fountains, or even mounted as framed artwork or permanent art installations. To ensure proper preparation and installation, we need to know how you plan to use the mural. (Installation instructions will be provided for all types of installations.)
